PROJECT PROPOSAL

MOST VALUABLE

Book update

Refresh the book and connect readers with practical experiences that move them toward your business and brand.

Storyline CREATIVE

storylinecreative.co

THE SCOPE

Project deliverables

01	**Manuscript upgrade**	Update the existing manuscript for relevance, engagement, and conversion. Revise company references and approved examples, preserve the story format, and strengthen the calls to action.
02	**Book refresh**	Modernize the cover, refresh the print interior, and add guided chapter questions and QR codes. Create the new ebook file, proofread and check the files, and fully set up on Storybase.
03	**Audiobook**	Prepare the narration script for David Ortiz to record at Works24. Edit the recording for retakes and goofs, and master the audio. Create square audiobook version of the cover. Studio recording fees are separate—our audio engineer, Thomas Harkin, will bill for his own time.
04	**Book companion**	Build a “legacy assessment” tool that gives readers meaningful insight and a next toward your team, plus eight short chapter reflection/generator experiences that keep readers coming back. Connect book access, contact capture, free audio and ebook access, and call booking.
05	**Email and text follow-up**	Write and configure an access-triggered contact sequence, with conversion-focused emails and opt-in texts, to help readers engage with the book, use the tools, and book a conversation.

YOUR INVESTMENT

Project investment

COMPLETE PROJECT · USD

$5,500

Includes the manuscript and book refresh, David Ortiz audiobook production, book companion, and email/text follow-up sequence described in this proposal.

Payment terms

50% at project start, remaining 50% on delivery.

Separate costs

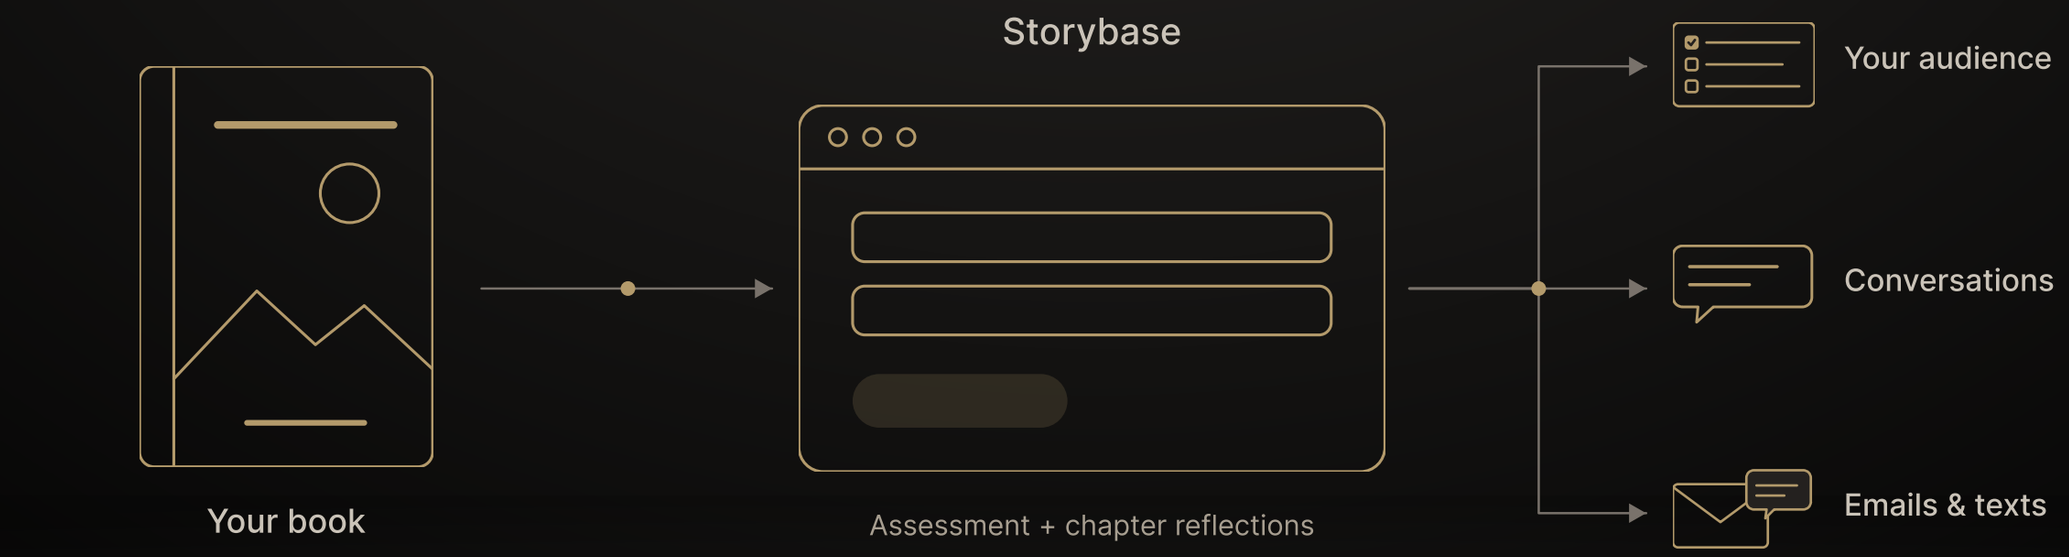

Works24 studio recording and sound engineer’s fee are separate, at Thomas’s own rate.

Next step: confirm the scope so we can prepare the kickoff invoice and begin.
